

Disclosure Document Deposit Request

Inventor(s) X
 Title of Invention: X

Enclosed is a disclosure of the above-titled invention consisting of _____ sheet(s) of description and _____ sheet(s) of drawings. A check or money order in the amount of \$ _____ is enclosed to cover the fee. (37 CFR 1.21).

The undersigned being named the inventor of the disclosed invention, requests the enclosed papers be accepted under the Disclosure Document Program, and that they be preserved for a period of two years.

Rodney Anthony Farmer
 Signature of Inventor(s)

NOTICE TO INVENTORS

It should be clearly understood that a Disclosure Document is not patent application, nor will its receipt date in any way become the effective filing date of the later filed patent application. A Disclosure Document may be relied upon only as evidence of conception of an invention and a patent application should be diligently filed if patent protection is desired.

Your Disclosure Document will be retained for two years after the date it was received by the Patent and Trademark Office (PTO) and will be destroyed thereafter unless it is referred to in a related patent application filed within the two-year period. The Disclosure Documents may be referred to by way of a letter of transmittal in a new patent application or by a separate letter filed in a pending application. Unless it is desired to have the PTO retain the Disclosure Document beyond the two-year period. It is not required that it be referred to in the patent applications.

The two-year retention period should not be considered to be a "grace period" during which the inventor can wait to file his/her patent application without possible of benefits. It must be recognized that in establishing priority of invention an affidavit or testimony referring to a Disclosure Document must usually also establish diligence in completing the invention or in filing the patent application since the filing of the disclosure document.

If you are not familiar with what is considered to be "diligence in completing the invention" or "reduction to practice" under the patent law or if you have other questions about patent matters, you are advised to consult with an attorney or agent registered to practice before the PTO. The publication, *Attorneys and Agents Registered to Practice Before the United States Patent and Trademark Office*, is available from the Superintendent of Documents, Washington, DC 20402. Patent attorneys and agents are also listed in the telephone directory of most major cities. Also, many large cities have associations of patent attorneys, which may be consulted.

You are also reminded that any public use or sale in the United States or publications of your invention anywhere in the world more than one year prior to the filing of a patent application on that invention will prohibit the granting of a patent on it.

Disclosures of inventions which may have been understood and witnessed by persons and/or notarized are other examples of evidence, which may also be used to establish priority.

There is a nationwide network of Patent and Trademark Depository Libraries (PTDLs), which have collections of patents and patent-related reference materials available to the public, including automated access to PTO databases. Publications such as *General Information Concerning Patents* are available at the PTDLs, as well as the PTO's Web site at www.uspto.gov. To find out the location of the PTDL closest to you, please consult the complete listing of all PTDLs that appears on the PTO's Web site or in every issue of the *Official Gazette*, or call the PTO's General Information Services at 800-PTO-9199 (800-786-9199) or 703-308-HELP (703-308-4357). To ensure assistance from PTDL staff member, you may wish to contact a PTDL prior to visiting to learn about its collections, services and hours.

Burden Hour Statement: This collection of information is used by the public to file (and by the PTO to process) Disclosure Document Requests. Confidentiality is governed by 35 UCS 122 and 37 CFR 1.14. This collection is estimated to take 12 minutes to complete, including gathering, preparing, and submitting the completed Disclosure Document Deposit Request to the PTO. Time will vary depending upon the individual case. Any comments in the amount of time you require to complete this form and/or suggestions for reducing this burden should be sent to the Chief Information Officer, U.S. Patent and trademark office, U.S. Department of Commerce, Washington, D.C. 20231. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Assistant Commissioner of Patents, Washington, D.C. 20231.

INVENTOR'S QUESTIONNAIRE

Please fill out this questionnaire to your best ability. Some of the information requested may appear to be redundant, but it does allow our Staff to provide you with clear, concise information. Consult your representative for any assistance or guidance.

1. How would you like your name to appear on all written materials?

Anthony Farmer B / Anthony Farmer B

2. If you have a co-inventor or co-inventors, do you want their name to appear on all materials? Yes No. If so how do you want their name to appear?

3. How would you like the Invention Name to appear on all written materials?

Hot Pot ~~for Kettle~~

4. Describe your Invention/Idea in as much detail as possible:

(Please attach additional paper to this form if necessary)

5. Provide instructions as to how someone would use your Invention/Idea:

6. List all of the benefits and/or advantages that your Invention/Idea has:

Added / it has 7 - vent hole drill Around top of Steel tube About one inch From top edge of Steel tube, Hole size 1/2 inch diameter, and 7 hole in the very bottom of it.

(Over)

(7.)

by owning this hot Pot Kettle you
will benefit from it by do it yourself.

you don't need a Roof Contractor
too ~~do~~ it, for all you have to do
is Follow the instructions,

in order to just melt some tar to

Fix your roof Leaks. with the
hot Pot tar Kettle your worry
are over.

Instruction No: 5.

1. First connect gas hose to the tank.

2. make sure the hose is tight to the valve so it won't leak.

3. Turn on gas valve just the setting and then turn on valve located on handle of (Hot Pot). About one half turn and then click sparker one or three times until the gas burner starts and when it starts turn it up one or two more knots.

4. Put about one inch or two inch of small rock in the bottom of bucket, and then start chipping pieces off of the Kite of Jar, with a axe, Put them in the ~~bottom~~ bucket add pieces to it until the bucket is full.

and then when Peices melt down
bucket is not Full of ~~liquid~~ Liquor
Add more Peices of Colic tar.

Look At heat gauge on bucket top.

Notice: PROHIBITED INVENTIONS:

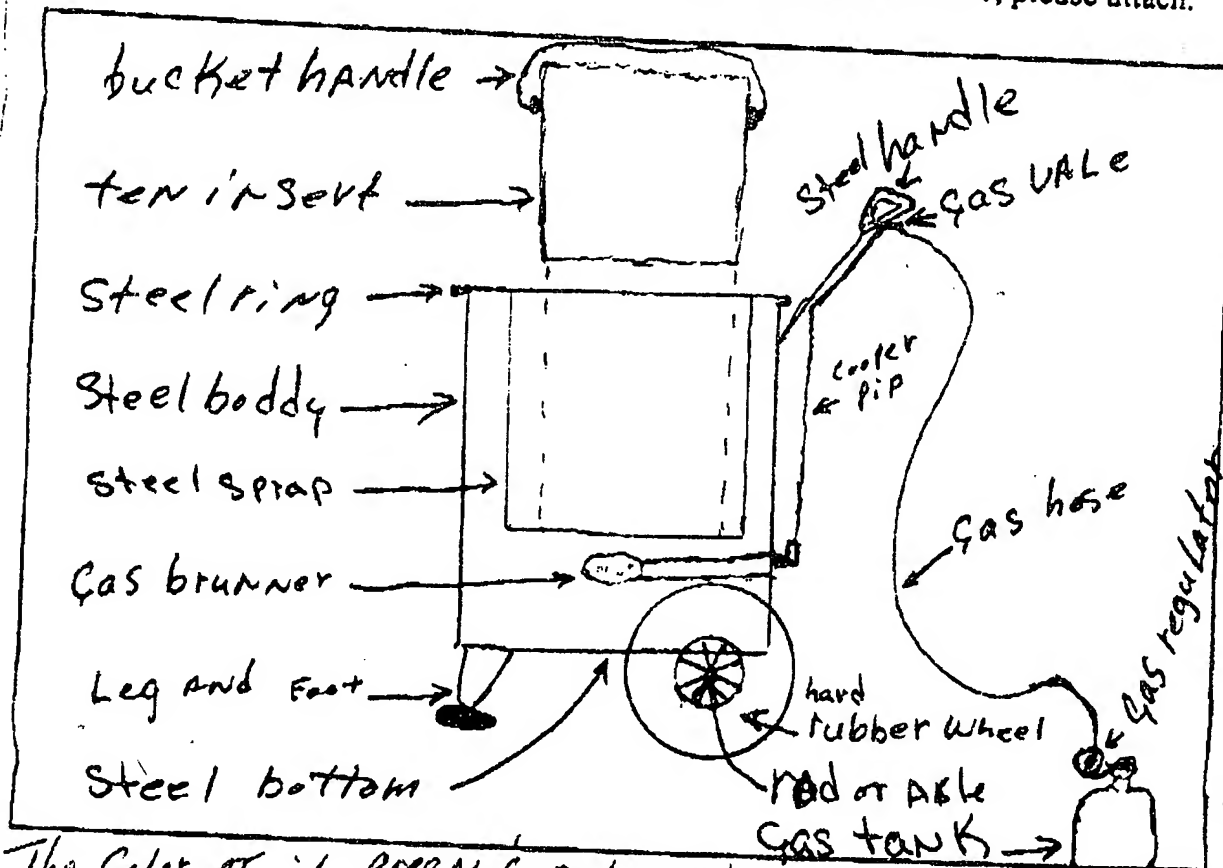

The following are categories of ideas or inventions that are not acceptable for research and development by The Inventors Network:

1. Perpetual motion device or machine (any invention that can run indefinitely without re-generating the energy source.)
2. Products or ideas using the name, likeness, or logo of an individual group or corporation (i.e. a "Batman" doll).
3. Chemical formulas or medications.
4. Product ideas without component design, or based on an unrealistic level of technology (i.e. ideas that have no plans as to how it should actually work).
5. Pornographic devices or products, or those considered harmful or in poor taste.
6. Military weapons.
7. Ideas not related to products such as:
 - *a. Business franchises.
 - *b. Services to consumers, business, or government.
 - *c. Advertising slogans or campaigns.
 - *d. Literary or musical works.
 - *e. Suggested public policies.

For all items marked with an asterisk(*), we can help you with trademark or copyright protection for these types of ideas, but cannot assist in the marketing of them.

ILLUSTRATION

Please furnish a drawing of your product idea in the space provided. A professional illustration is not necessary nor expected. If photographs are available, please attach.

The Color of it green & red - red wheels and green body.

Please list suggested components and materials, etc.:

it a steel tube, strap, ring, bottom, leg and foot, foot with wheel, burner, handle, ignitor, on and off valve, propane tank, 5 gallon insert, 25 feet of hose. All steel material except wheels rubber.

DO NOT SUBMIT PROTOTYPES OR WORKING MODELS UNLESS REQUESTED. THE INVENTORS NETWORK IS NOT RESPONSIBLE FOR THE SAFE ARRIVAL, HANDLING, MANAGING OR RETURN OF ANY PROTOTYPES MAILED TO OUR ATTENTION UNLESS REQUESTED BY THE INVENTORS NETWORK.

PRODUCT/IDEA DESCRIPTION

Describe your product/idea.

thickness of steel tube $\frac{1}{2}$ " diameter outside $14" \times 13"$ inside,
 height $11\frac{1}{2}"$, Weight About $\frac{1}{100}$ LBS, insert $\frac{1}{2}$ gallon tea bucket,
 ring outside $15" \times 11\frac{1}{2}"$ inside, steel $\frac{3}{8}" \times \frac{3}{8}"$ thick steel handle
 Explain the product/idea's function(s). 15 A U-type.

List the product/idea's benefits and unique qualities.

If this is an improvement on an existing product, list the new benefit(s).

BACKGROUND INFORMATION

When did you conceive your product/idea? 1-10-97Briefly state how you first conceived this idea (work, hobby, etc.). I was working on hot toList those individuals to whom you have revealed your product/idea. Too F.Have you constructed a prototype? NO Has it been tested/used? NO

PATENT STATUS

	YES	NO
Has a patent search been conducted? If yes, please attach.	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Have you filed a patent application on your product/idea?	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Do you have an issued Patent on your product/idea? If yes, please indicate date of issue or attach a copy	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Have you made a public disclosure of your invention or offered it for sale? If yes, please explain: <u>NO</u>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

ADDITIONAL INFORMATION

Please include any additional information you feel may help us in understanding your product/idea.

this hot pot kettle in class by itself, the hot pot can
easily meet the demand for do it yourself, it have a high
volume output, Fast recovery time and hi cooking time with
single burner efficiency. this hot pot is heavy weight and
compact this mini kettle is ideal for small patch jobs.
it fits in the trunk of a car and on back of a pickup
Truck.

PRE-DEVELOPMENT QUESTIONNAIRE JUL 12 2007

The following information request will be needed for the creation of all of the written materials for your project. Please return this information to us as soon as possible. Consult your Inventors Manual for more information and direction. **PLEASE COMPLETE ALL QUESTIONS.**

Be careful to write names, etc. exactly as you want them to appear on all official documents.

(PLEASE PRINT CLEARLY)

NAME Rodney Anthony Farmere

THE STORY BEHIND YOUR INVENTION/ OTHER PERTINENT INFORMATION THAT MAY BE HELPFUL IN PROMOTING YOUR IDEA (Attach additional sheets if necessary).

The following information is **VITAL** to the preparation of most of the items associated with your project, including your *Patent Application*. Please provide as much detail as possible. Refer to the Inventors Manual section entitled, "PRE-DEVELOPMENT QUESTIONNAIRE." **ATTACH EXTRA SHEETS IF NECESSARY.**

1. Sketch how your invention looks in detail. If you have a drawing or photograph, please attach it and label and name each part. State the function of each part and how it works.

Note: If an illustration was done for you by us, please check which of the following apply:

- ☒ Illustration is fine as-is. I have attached a copy of it.
- ☐ I have attached a copy of it and indicated all necessary changes.
- ☐ Refer to my sketch (below, or attached) and provide completely new drawings.

2. From start to finish, state exactly how your invention is used (as if you are writing an instruction booklet to accompany the product.)

3. In comparison to products that are currently patented or used to perform this task or fill this need that you know of, how is your invention different, better and unique? Make direct comparisons of the advantages your invention has over the others.

4. Name any other use(s) for or benefit(s) of your invention:

5. What else can you disclose about your invention?

This information was written on the 2nd day in the month of July in the year 2006 by :

Story Behind The Invention

One day while attempting to patch a relatively small roof area, I realized that I needed to use tar. The overall cost of the small job did not or could not justify the amount of money it would cost to rent a tar kettle and hire another laborer; so I placed a bucket inside of another a bucket and cut a hole in the bottom large enough to fit a torch through - - the idea for the "Hot Pot Kettle" was born.

I saw the need for a small, portable tar kettle. One that could be carried up and down a ladder by one person; thus reducing manpower and overall costs.

INSTRUCTIONS

1. Turn gas flow valve on to pilot light.
2. Press ignite button 1 or 2 times, until burner is lighted.
3. Adjust gas flow valve to medium (3). *Valve turns clockwise to levels 1-6.*
4. Remove lid and place bucket inside of "Hot Pot Tar Kettle".
5. Place tar chips (sized to fit) in bucket. Cover with lid.
6. Adjust gas flow valve to high (6). When temperature gauge reaches 350-400 degrees, tar is ready to be used. Use self-leveling handle to lift bucket from burner chamber.

(WARNING: To avoid serious injury, do not tilt bucket. Handle with care!)

HOT POT TAR KETTLE

Different, Better, Unique

DIFFERENT- The "Hot Pot Tar Kettle" can be transported in the trunk of most automobiles as well as small pickup trucks.

BETTER – Because of its safe, economic convenient way to heat tar to the temperature, which can be applied to a roofing surface. Very useful for flat or low pitch roofs, which require periodic applications of tar for routine maintenance.

Unique – The bucket of tar can be safely handled by one person; allowing routine maintenance costs to be lowered.

HOT POT TAR KETTLE

- A PORTABLE, HIGH-VOLUME TAR KETTLE WITH A FAST RECOVERY TIME
- PERFECT FOR SMALL JOBS OR "DO-IT-YOURSELFERS"
